**Subject:** Brush Hill Reply BoH memo for Brush Hill Homes 40B

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please be aware that Chair Daryl Beardsley and Vice-Chair Julie Dreyfus have made two significant errors in the memo provided to the ZBA dated November 2, 2024.

In the table at the top of the memo, they fail to list Perc 23-10b which had a rate of 14 MPI (one of five perc tests in the proposed system). They also listed a poor perc test 25' outside the proposed system twice giving the impression of multiple failed tests.

I will further note that all five perc tests in the proposed system **meet all local requirements** in addition to the Title V rates.

Please circulate this reply to the full ZBA.

Many thanks,

Bob
