Zoning Board of Appeals
19 Washington St.
Sherborn MA 01770

Dear Members of the ZBA,

I believe this will be my final written communication regarding water for multi unit developments.

I think the quality and delivery of water to a community is so critical that the design of a public water supply should dictate the design of the project. I don't understand designing a project and then saying it cannot accommodate a public water supply.

I would like to address the enforcement of an order of conditions placed on a deed. Again, I am speaking from the experience of living at Abbey Road. The Conservation Commission placed an order of condition on the deed that A R has fully complied with. This said, to the best of my knowledge and having asked the current Board President, there has never been any follow up from a town entity to make sure the conditions were met. Simply put, the town does not have the resources to be responsible for the checks and balances to ensure an order of conditions is being met.

Thank you for your consideration,

Sara Wragge
